

ADJUSTING MECHANISM

- *Seat height adjustment: Turn lever A
- *Seat & back tilt with multi-lock: Turn lever B upwards to make back tilt
Lean back and turn lever B downwards to lock back in multi position
- *Tension control: Turn knob to make chair suit your weight.

ERGONOMIC INSTRUCTION

- *For good blood circulation, adjust the seat height to make your feet rest flat on the floor.
- *Adjust the angle of the backrest to give firm support while sitting upright.
- *Adjust the lumbar height to give support to the lumbar region of your back.
- *Your forearms should be close to horizontal by pressing button of the armrest to adjust the height of armrest.

MAINTENANCE

- *Protect the chair from direct sunlight.
- *Check and tighten all the bolts periodically.

FABRIC CARE

- *Vacuum regularly and gently.
- *Wipe clean with damp cloth.
- *Use leather cleaner where leather is applicable.
- *Test on concealed before proceeding.

CASTOR

- *Hard-tyred castors are unsuitable for use on hard floors or firm chair mats in which case soft-tyred castors should be used. Soft-tyred castors are distinguishable by the tyres being a different color to the body of the castor.

WARNING

- *Do not use this chair unless all bolts/knob are tightened and this chair is assembled firmly and properly.
- *This chair is for one person to sit on. Do not stand on the chair.
- *Do not touch mechanism except lever handle/knob when people is sitting in.
